

## **Animal Medical Center** of The Antelope Valley

**Animal Medical Center/Dr. David Lahijaniha is now offering TPLO/TTA, Orthozip, Lateral Suture, FHO, Medial Patella Luxation, Fracture Repair and Advanced Soft Tissue Surgeries**

**Meet our Surgeon**

**Dr. David Lahijaniha is a unique surgeon** with extensive surgical training, knowledge, and expertise in advanced soft tissue and orthopedic surgery. He specializes in TPLO surgery, medial patellar luxation's, fracture repairs, FHO (Femoral Head and Neck Osteotomy), and a multitude of advanced soft tissue surgeries. Dr. David's extensive surgery expertise comes from years of practice, and advanced surgery courses with board certified veterinary orthopedic surgeons. His perfected techniques are exemplified by excellent post operative outcomes and extreme satisfaction from clients. Suture technique and careful attention to detail rival that of a plastic surgeon. Dr. David is a progressive surgeon who offers gold standard techniques, and new age medical instruments (such as grafts, mesh, cold laser, platelet and stem cell therapy) to maximize patient outcomes and minimize post operative care.
